

# Workforce Management Solution

**We can help you track your employees and assets to save time and money.**

Do you track your employees' tickets/certifications or vehicles and equipment? Our Workforce Management Solution helps you track the things most important to your operation. Employees, assets, equipment and maintenance can all be tracked through our web-based solution. By tracking your workforce through our all in one solution, you can get rid of the time-consuming task of manually maintaining files, spreadsheets and outlook reminders.

## Question less. Know more.

*Track employee tickets, orientations and certifications.*

## Say goodbye to unplanned downtime.

*Track and schedule preventative maintenance to greatly reduce equipment downtime.*

## Less forgetting and more renewing.

*Automated alerts and notifications will remind your team to complete renewals before they expire.*

## Assign the right employee every time.

*With employee tracking, you will always know who is qualified to do the job.*

## REDUCE

Risk  
Administration time  
Expired tickets

## INCREASE

Productivity  
Knowledge transfer
